

CAPMR

SANDY PINKERTON QUAICH

MAY 29, 2009

Banff, Alberta, Canada

The world famous Stanley Thompson designed Banff Springs Hotel Golf course served as this years' host.

Stanley Thompson was born in 1893, and is Canada's most famous golf architects. His philosophy is described as Natural artistry.

“Natural artistry has been ascribed as the essence of Stanley Thompson’s design philosophy. The harmonious blending of artfully sculpted golf landforms with the surrounding environment, omni-present natural features and breathtaking views was and remains the anchor to the classic, uniquely Thompson dynamic. Thompson golf holes were created to look as if they had always been there and were always meant to be there.” <http://www.stanleythompson.com/architecture/showcase/>

The day was a picture perfect, sunny, spring day, in one of the most scenic locals in the world. Good friends, good golf, made for a fantastic afternoon on the links.

This years' winner with a mind boggling round of 76 was Keith Sequeira.

.....See you in Winnipeg!!!!!!!!!!!!!!
