

Good morning,

Thank you for registering for **“Virtual Physical Exam During COVID-19” Online Activity, July 23, 1500 PM EDT***.

**Important NEW information enclosed in this email to help you prepare.
Read it all**

Changing Zoom Platform to Video Conference

To facilitate the ability to break out into small groups, of 6 people per group, we have switched to [Zoom Video Conference](#) platform (from Zoom Webinar Platform).

You will no longer use the access information previously provide by Zoom webinar in the reminder notifications. The new access information has a password that you must enter to join the meeting using the email address provided at time of your registration. This is the email that has been pre-assigned into a group of 6. Entering using a new email address could prevent you from being assigned to a group.

Video Conference & Requirements

You will be muted on entry and your video camera will be off. During the presentation from Drs. Winston and McIntyre keep your mics **off**. During the breakout rooms, we will ask you to unmute and keep your **video on**. This will enable active participation. You will also be encouraged to leave your video on during the large group Q&A however stay muted unless you intend to speak.

Participants are asked to ensure that they are connecting with a device that has video functionality, whether a phone, laptop or desktop that has a video camera and mic. **We need to hear you and see you.**

Participation

This program is an accredited self-assessment program (section 3) as defined by the maintenance of certification program of the royal college of physicians & surgeons of Canada and approved by the CAPM&R. In order to achieve Section 3 requirements, members are asked to actively participate in the breakout rooms and work in pairs to practise:

- Screening shoulder exam (5 minutes)
- Screening back exam (5 minutes)
- Cranial nerve exam (5 minutes)

When it is not your assigned task, please give feedback and offer suggestions.

Within your groups, self-assign each participant a number based on the order of your last name (closest to A is 1, furthest from A is 6). This will determine your role in the group as follows:

1. Screening shoulder exam – person 1 is the examiner, person 2 is the examinee
2. Screening back exam – person 3 is the examiner, person 4 is the examinee
3. Cranial nerve exam – person 5 is the examiner, person 6 is the examinee

Breakout room participants have full audio, video, and screen share capabilities. Participants in breakout rooms can request that the meeting host join their meeting by clicking “**Ask for Help**”. 

If a member of your group is not present or is not actively participating, please find a suitable solution from amongst yourselves to complete the tasks.

Interactivity

You may participate using your mic, video, chat box, Q&A box, [screen share](#) & [whiteboard](#).

Changing the video layout

There are [3 video layouts](#) when no one in the meeting is screen sharing: Active Speaker, Gallery, and Mini. When someone is screen sharing, you can use Side-by-side Mode or view the screen share with Active Speaker or Gallery View. Any of these layouts can be used in Full Screen or Windowed mode, with the exception of Mini Window. We recommend that you use Gallery view during the breakout session, you will be able to see up to 49 participants at a time and will have an arrow to scroll through the remaining participants.

Homework

Review the attached presentation and send your questions in advance to info@capmr.ca.

If you are unable to attend the activity, please let me know so that I can remove you from the pre-assigned group.

Those who have registered in advance will receive a certificate of participation for MOC Section 3.

This PDF should be saved to your desktop so that you can access all of this information quickly on July 23.

Warm Regards,

Heather
